SUMMARY

Computer Science graduate (B.Sc. & M.Sc.) specializing in Game Development and Data Science. Experienced in developing Roblox games, including immersive maps and multiple minigames such as fishing, puzzles, and image guessing, using Lua scripting. Also skilled in building AR/VR applications with Unity and implementing AI-driven NPC behaviors to enhance gameplay experience.

Familiar with integrating emerging technologies, including blockchain systems for secure transactions and NFT features in multiplayer games. Strong foundation in software development, problem-solving, and collaborative teamwork, with a focus on delivering engaging and interactive user experiences.

WORK EXPERIENCE

Roblox Developer, POV Media Nusantara

Jan 2026 - April 2026

- Developed immersive and interactive maps in Roblox, focusing on engaging environments and player experience.
- Created and implemented various in-game minigames, including fishing systems, puzzle challenges, and image guessing games to enhance player retention and engagement.

Intern Unity Developer, FxMedia Technology

Feb 2023 - Nov 2023

- Developed augmented reality (AR) games in Unity using TiltFive and tested AR platforms, delivering immersive and interactive experiences.
- Tested and integrated AI SDKs, implementing AI-driven behaviors in non-playable characters (NPCs) to enhance game realism and engagement.
- Collaborated with a team on the Roblox Studio, contributing to the development and refinement of games for an active player community.

Start Up Export-Import, Part of Organization

Jan 2022- Apr 2023

- Managed all changes that occur on social media and websites.
- Looking for buyers and also expanding relations with suppliers.

EDUCATION

Master's Degree, Computer Science

Binus University

2023 - 2025

- Data Science Concentration
- GPA: 3.74
- Relevant Coursework: IoT, Machine Learning, Deep Learning

Bachelor's Degree, Computer Science

Binus University

2020 - 2023

- Game Application Concentration
- GPA: 3.27
- Relevant Coursework: Game Design, Game Art, Game Animation

High School, MIPA

SMA Fons Vitae 2

2017 - 2022

- Grade: 85

ADDITIONAL INFORMATION

- **Technical Skills:** C#, C++, Lua, Unity Engine, Roblox Studio, Unreal Engine 5, Augmented Technology, Virtual Reality
- **Languages:** Bahasa Indonesia, English
- **Certifications:** Alibaba ACA Cloud Computing, Apsara Alibaba Clouder AI, Google Play Store Listing
